MUHAMMAD AWAIS

Full-Stack Developer | React.js | React Native | Node.js

awaisafzal343@gmail.com 0308-0146122 Lahore, Pakistan linkedin.com/in/muhammadawais343

PROFESSIONAL SUMMARY

Full-Stack Developer with 1+ years of professional experience building and deploying scalable web and mobile applications using React.js, React Native, Node.js, and TypeScript. Proficient in end-to-end development — from RESTful API design and database integration to frontend implementation and production deployment. Delivered solutions across e-commerce, food-tech, healthcare, and media domains. Experienced in client communication, requirements gathering, debugging, and performance optimization in production environments.

PROFESSIONAL EXPERIENCE

Full-Stack Developer Jul 2025 – Present

Sortup · Lahore, Pakistan

- Developed and maintained cross-platform web and mobile applications across e-commerce, food-tech, healthcare recruitment, and news domains using React.js, React Native, Next.js, Node.js, Express.js, and TypeScript.
- Built and integrated RESTful APIs, implemented authentication workflows (Clerk), and connected third-party services including Cloudinary for file uploads and Sentry for error monitoring.
- Managed client-facing communication — gathered requirements, provided technical guidance, and delivered solutions aligned with business objectives across multiple concurrent projects.
- Deployed frontend and backend applications to production using Cloudflare, Vercel, Render, and PM2; configured custom domains, environment variables, and production settings.
- Debugged and resolved production issues, optimized application performance, and maintained code quality through structured Git workflows and testing practices.

SELECTED PROJECTS

Medical Recruiter *Healthcare Recruitment Platform · In Progress*

Next.js, React.js, Tailwind CSS, Node.js, Express.js, Clerk, Cloudinary, Sentry

- Contributing to full-stack development of a platform connecting healthcare organizations (hospitals, agencies, pharmacies) with candidates — featuring job posting, candidate search, application tracking, and organization management.
- Implemented user authentication with Clerk, file/document uploads via Cloudinary, and RESTful API endpoints for recruitment workflows.
- Deployed responsive frontend to Cloudflare with custom domain configuration and backend API to a production environment.

Ojiyo *Multi-Vendor E-Commerce Platform*

React.js, React Native, TypeScript, Node.js, Express.js, Tailwind CSS

- Built and enhanced UI components and screens across web and mobile platforms; developed and integrated RESTful APIs for product management, dynamic pricing, and vendor operations.
- Implemented real-time data features in a live multi-vendor environment and resolved production issues to ensure platform stability.

Bitesy *Multi-Branch Restaurant Management Platform*

React.js, TypeScript, Node.js, Express.js

- Developed full-stack features for a food-tech platform supporting multi-branch product management, real-time order handling, and role-based access control for vendors, owners, and branch managers.
- Built dashboard modules for sales analytics, promotions, customer management, and order tracking across multiple restaurant branches.

SMN News *News & Live TV Platform*

React.js, Django, PostgreSQL, CSS

- Developed a news web application with live TV streaming, dynamic content listing, and category filtering; built a CMS dashboard for content, live stream, and advertisement management with PostgreSQL backend integration.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, HTML5, CSS3
Frontend	React.js, React Native, Next.js, Tailwind CSS, Bootstrap
Backend	Node.js, Express.js, Django, RESTful APIs
Databases	PostgreSQL, MongoDB, Mongoose, MySQL
Deployment	Cloudflare, Vercel, Render, PM2, Environment & Domain Configuration
Tools & Other	Git, GitHub, Postman, pgAdmin, Chrome DevTools, API Integration, Authentication, Debugging

EDUCATION

BS Computer Science 2021 – 2025

University of Okara, Okara, Pakistan
