PROFESSIONAL SUMMARY

Frontend developer with 2+ years of experience building production React and Next.js interfaces for healthcare, food-tech, media and e-commerce products — role-based dashboards, data tables, charts, rich-text editors and PDF receipts. Strong in component architecture, state management, API integration and responsive layouts; ships to Cloudflare and Vercel.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks	React.js, Next.js, React Native (Expo), Vite, React Router
State & Data	Redux Toolkit, RTK Query, React Hook Form, REST API integration, Socket.IO client
UI & Styling	Tailwind CSS, Material UI, Radix UI, Motion (Framer Motion), responsive design, i18n
UI Libraries	TanStack Table, Recharts, TipTap, Quill, React-PDF, Google Maps
Tools & Deploy	Git / GitHub, Postman, Chrome DevTools, Sentry, GitHub Actions, Cloudflare, Vercel, Docker (basics)
Backend basics	Node.js, Express.js, PostgreSQL, Supabase, MongoDB, Clerk / JWT authentication

PROFESSIONAL EXPERIENCE

Frontend Developer — Sortup · Lahore, Pakistan — Jan 2025 – Present

- Build production React and Next.js interfaces for healthcare, food-tech, media and e-commerce products: role-based dashboards, data tables, forms, charts and PDF receipts.
- Own the UI layer end to end — component architecture, Redux Toolkit / RTK Query state, API integration, loading and error states, localization and responsive layouts.
- Ship and operate frontends: Cloudflare and Vercel deployments with custom domains, GitHub Actions CI/CD, environment configuration, Sentry monitoring and production debugging.
- Agree API contracts with backend engineers and requirements with clients; PR-reviewed feature branches.

Associate Frontend Developer — Client projects & independent development · Lahore, Pakistan — Jan 2024 – Dec 2024

- Delivered client MVP interfaces with React, React Native and Tailwind CSS; deployed to Cloudflare and Vercel.

SELECTED PROJECTS

Bitesy — Food ordering & restaurant management (web dashboards) — bitesy.net

Stack: React, TypeScript, Redux Toolkit / RTK Query, TanStack Table, React Hook Form, Recharts, React-PDF, i18next, Tailwind CSS, MUI

- Built vendor, owner and branch-manager dashboards for orders, menus, payouts and analytics, with PDF receipts and a localized UI.
- Built catalog customization screens (variants, add-ons, option groups) and live order views over Socket.IO.

ITIF Medical — Healthcare recruitment platform (EU) — itifmedical.com

Stack: React (Vite), React Router, Tailwind CSS, Motion, Clerk, Quill, Firebase, Cloudflare

- Built the multi-role interface — job board with filters, application flow, and recruiter, organization and admin dashboards — with animated layouts and responsive mobile navigation.
- Shipped push-notification UI, document uploads and admin tools (recruiter suspension, hiring-lead contacts); deployed to Cloudflare with a custom domain.

SMN Online — News & live-streaming platform — smn-online.com

Stack: React 19, Vite, Tailwind CSS 4, TipTap, Recharts, Django REST Framework

- Built the admin CMS UI: rich-text article editor, breaking-news ticker, user roles and ad-zone management with analytics charts.
- Built the public site: homepage sections, search with pagination, related articles and a live-stream widget.

Sentinel Health IQ — Healthcare care-gap platform — app.sentinelhealthiq.com

Stack: Next.js, React, TypeScript, Redux Toolkit, Tailwind CSS, Clerk, Vercel

- Clinical workstation UI for physicians — patient roster, care-gap dashboard, review-and-sign queue, outreach and fulfillment tracking — integrated with a FastAPI / FHIR backend; deployed on Vercel.

Ojiyo — Multi-vendor e-commerce platform & mobile app — ojiyo.ai

Stack: React, React Native, TypeScript, Firebase

- Built responsive storefront and React Native screens — product modals, dynamic tier pricing, live multi-vendor inventory — and shipped fixes and features to web and mobile.

Personal apps — Dairy Management (Urdu RTL interface: daily delivery dashboard, payments, WhatsApp invoices) and Family Tree (interactive SVG tree rendering, photo uploads), built with React Native / Expo, NativeWind and Supabase.

EDUCATION

BS Computer Science — University of Okara, Okara, Pakistan — 2021 – 2025
